HealthLink’s Utilization Management program is designed to provide clinical review of medical care to convey information and recommendations to plan administrators and carriers in connection with their determination of benefit eligibility. Medical necessity certification does not guarantee that services are covered. Benefits are subject to the patient’s eligibility at the time charges are actually incurred, and to all other terms, conditions and exclusions of the applicable health plan. AIM Specialty HealthSM (AIM) provides support for HealthLink’s preauthorization review process.
